🌐 Portfolio | 📍 Greater Noida, India

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with strong skills in MERN Stack development and React.js. Experienced in leading frontend teams during internships and hackathons. Passionate about full-stack development, AI applications, problem solving, and building scalable web applications.

EXPERIENCE

Ekikai

May 2026 – Present

Frontend Team Leader Intern (Remote)

- Leading frontend development using React.js and coordinating with backend developers.
- Developing reusable and responsive UI components following modern development practices.
- Managing task allocation, sprint planning and code reviews for the frontend team.
- Collaborating with multiple developers to deliver projects within deadlines.
- Improving UI/UX and optimizing application performance.

PROJECTS

AI Memory Management System | *MERN Stack, AI*

- Developing an AI-powered memory management platform for students to organize learning resources efficiently.
- Implemented intelligent note organization, image storage, and smart search functionality.
- Designed scalable backend architecture using MongoDB, Express.js and Node.js.
- Building a responsive frontend using React.js with modern UI/UX principles.

Real-Time Chat Application | *React.js, Node.js, Express.js, MongoDB, Socket.io*

- Built a full-stack real-time chat application using the MERN stack.
- Implemented JWT Authentication for secure user login and authorization.
- Integrated Socket.io for instant real-time messaging between users.
- Developed responsive UI with efficient state management and API integration.

Portfolio Website | *React.js, CSS, Express.js, Node.js*

- Designed and developed a fully responsive personal portfolio website.
- Showcases projects, technical skills, achievements and downloadable resume.
- Implemented smooth animations, responsive layouts and optimized performance.

Legal Case Management System | *Django, Python, SQLite*

- Developed a web application for managing legal case records digitally.
- Implemented CRUD operations, authentication and database management.
- Designed a clean and user-friendly interface for efficient case tracking.

EDUCATION

GL Bajaj Institute of Technology & Management

Bachelor of Technology in Computer Science Engineering

2024 – 2028

Greater Noida, India

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js

Database: MongoDB, SQLite

Tools & Technologies: Git, GitHub, REST APIs, JWT Authentication, Socket.io, VS Code, Postman

ACHIEVEMENTS

Leadership & Achievements

- **Frontend Team Leader Intern** at Ekikai, leading frontend development using React.js.
- Successfully led multiple development teams during college and hackathons while managing task allocation and collaboration.
- Participant in **Smart India Hackathon (SIH)**.
- Participant in the **Adobe India Hackathon**.
- Active problem solver on **LeetCode** (Username: **Piyush1837**).

CERTIFICATIONS

MERN Stack Development

- Self-learning through hands-on full-stack projects and continuous practice.

Frontend Development

- Built multiple responsive React.js applications following modern UI/UX principles.
